1 Ancient Myth, Religion, and Philosophy "Progress, far from consisting in change, depends on retentiveness... when experience is not retained, as among savages, infancy is perpetual.

### **Ancient Myth, Religion, and Philosophy**

Myth is a folklore genre consisting of narratives that play a fundamental role in society, such as foundational tales. The main characters in myths are usually gods, demigods or supernatural humans. Myths are often endorsed by rulers and priests and are closely linked to religion or spirituality. In fact, many societies group their myths, legends and history together, considering myths to be ...

Scientific racism (sometimes referred to as race biology), is the pseudoscientific belief that empirical evidence exists to support or justify racism (racial discrimination), racial inferiority, or racial superiority. Historically, scientific racist ideas received credence in the scientific community but are no longer considered scientific. Scientific racism employs anthropology (notably ...

[Download PDF] Sensationalist claims have circulated this election season about the extent of voter fraud, with some politicians going so far as to tell voters to fear that this November's election will be rigged. Because electoral integrity is one of the elements necessary to making America the greatest democracy in the world, claims like this garner media attention, and frighten and ...

Many of you have probably heard of the "alkaline diet". There are a few different versions of the acid-alkaline theory circulating the internet, but the basic claim is that the foods we eat leave behind an "ash" after they are metabolized, and this ash can be acid or alkaline (alkaline meaning more basic on the pH scale). According to the theory, it is in our best interest to make sure ...

ITER under construction (Photo: ITER organization) TL;DR: The ITER reactor concept has been sold to the public based on the false perception that it will produce 500 MW of net thermal power. In fact, the net power of the reactor will be about zero if all goes well. Zero would actually be a scientific accomplishment because the most powerful fusion reactor to date recovered only 16 MW of the ...

Autism spectrum disorder (ASD) is a developmental disability that is caused by differences in how the brain functions. People with ASD may communicate, interact, behave, and learn in different ways. Recent estimates from CDCâ€™s Autism and Developmental Disabilities Monitoring Network found that about 1 in 68 children have been identified with ASD in communities across the United States.
