River Whispers (2011) About book: I don't think I've ever given a book one star before. I'll admit I read the first third waiting for the book to get captivating, but it never did. I completely skipped the middle third and very briefly skimmed the last third.

River Whispers is a pretty good read. I enjoyed the mystery and suspense to the story. I did not want to put the book down until the end. A good, quick and clean romantic suspense. 4 1/2 stars. I received this book from the author, but was not required to write a review. This review is 100% my own honest opinion.
