participating school operators accountable, ensuring that the system remains high-performing, dynamic, responsive, and self-improving. A near-certain consequence of this new approach to managing a city's portfolio of schools would be the replacement of the urban district as the delivery system for urban public schooling.

Center for the Urban School System of the Future

students and students from urban schools would be expected to have less successful educational outcomes, less supportive home environments, and less positive school experiences than students from other schools. In fact, this study finds large differences between urban and non-urban schools and between high
