FactSheet Confined Spaces in Residential Construction OSHA has developed a standard for Confined Spaces in Construction (29 CFR 1926 Subpart AA) that applies to spaces such as attics, basements, and crawl spaces.

Confined Spaces in Residential Construction

Purpose. Waterproofing is usually required by building codes for structures that are built at or below ground level. Waterproofing and drainage considerations are especially important in cases where ground water is likely to build up in the soil or where there is a high water table.. Water in the soil causes hydrostatic pressure to be exerted underneath basement floors and walls.
